

NSC Technical Subcommittee Call Minutes – August 16, 2022

Participation [by Region]:

- 3: Luke Hershey, Jeremy Hancher & Lee Ann Briggs – **PA**
- 4: Donovan Grimwood – **TN**; Tony Pendola - **NC**
- 5: Jenifer Dixon – **MI**; Jennifer Feyerherm & Lisa Ashenbrenner-Hunt – **WI** & Mark Stoddard - **IN**
- 7: Bob Randolph – **MO**; Allison Crowther – **KS**; Christine Paulson & Jennifer Wittenburg - **IA**
- 9: Eric Florio & Jennifer Lipkin – **NV** & Sydney Boogaard - **AZ**
- 10: Belinda Breidenbach - **ID**

Unknown: Christian Fellner

EPA: Rhonda Wright, Sarah Baker & Elnora Thompson

Presenter: Jennifer Caparoso, EPA OAQPS

Tech-Subcommittee: <https://nationalsbeap.org/sbeap/resources/subcommittees/technical>

**** This presentation was recorded and will be posted on the National SBEAP YouTube channel at <https://www.youtube.com/channel/UC5PupYpZ1W6IG8CtzCINK8Q> ****

Welcome: New Co-chair Jenifer Dixon, Michigan

Contact: DixonJ2@Michigan.gov or 616-581-0044

Existing Co-chair Mark Stoddard, Indiana

Contact: MStoddar@idem.IN.gov or 317-233-1039

A little bit about *Greenhouse Gas Emissions from Stationary Combustion Turbine Electric Generating Units*

Jennifer Caparoso, EPA

- Jennifer will provide an overview of the proposed amendments. This discussion should include what the subcommittee feels may be impacts to small business from these proposed changes.
- **Bio: Jennifer Caparoso**, Environmental Engineer, U.S. EPA, Office of Air Quality Planning and Standards.

She is assisting with the review of the New Source Performance Standards for Greenhouse Gas Emissions from New, Modified, and Reconstructed Stationary Sources: Electric Generating Units.

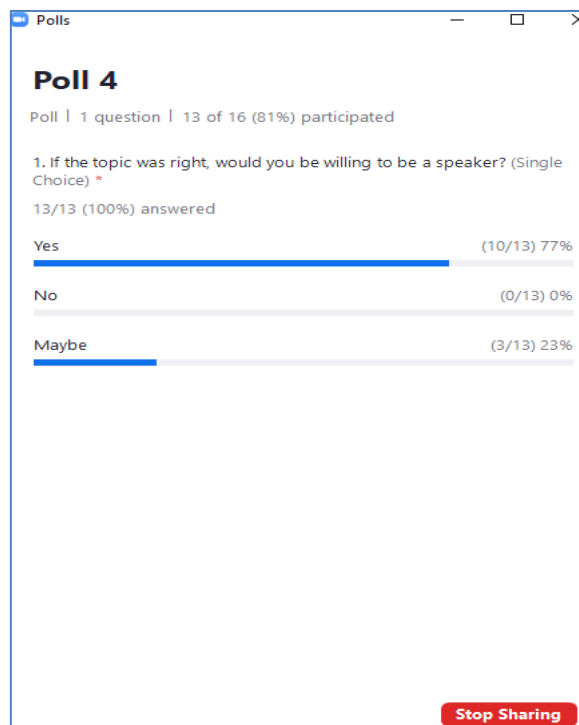

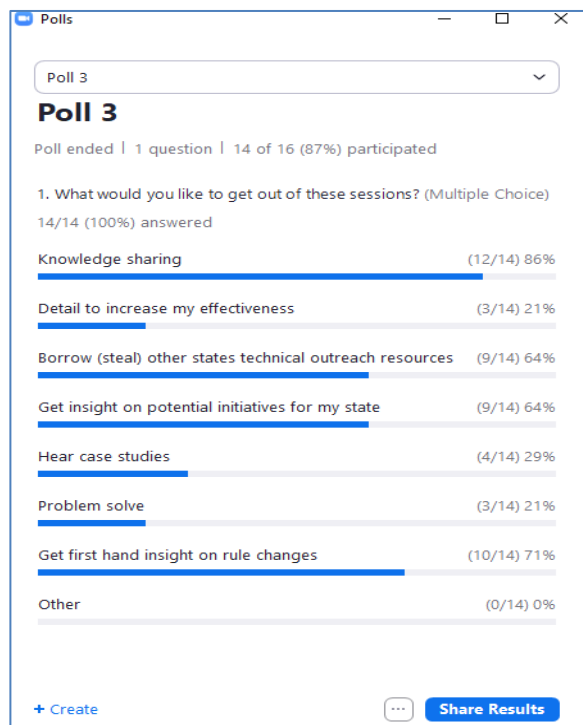

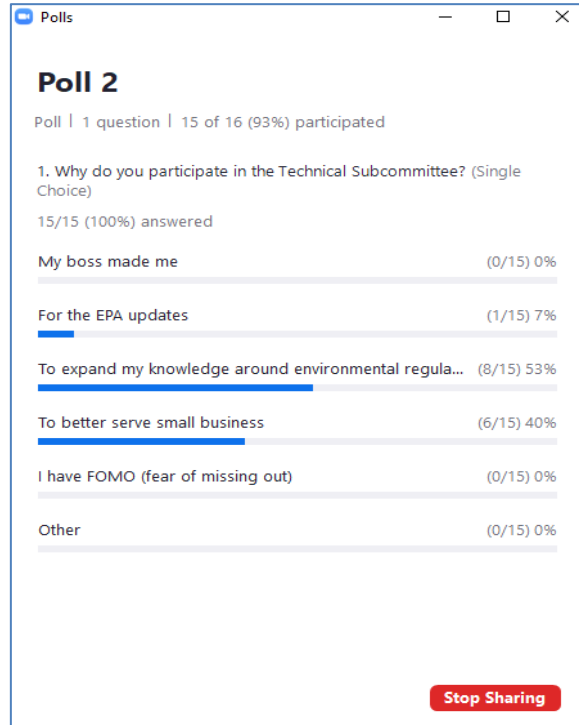

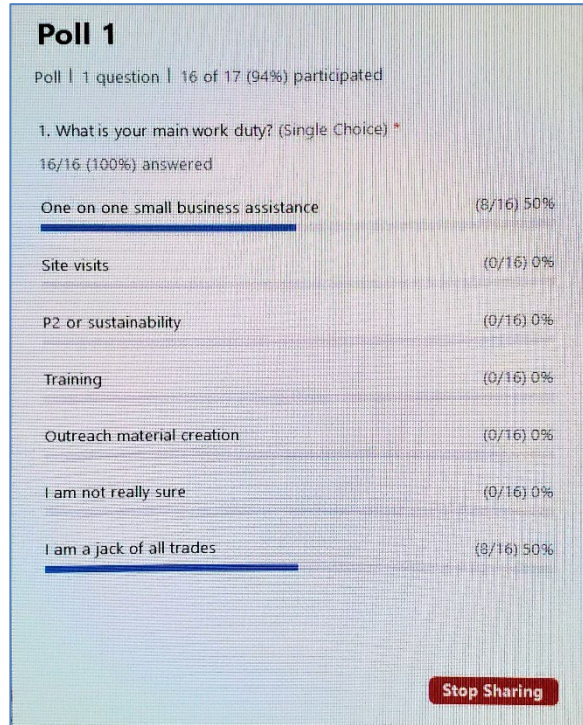

Some questions were asked, regarding what the affected source list looks like and how can our group help get the word out.

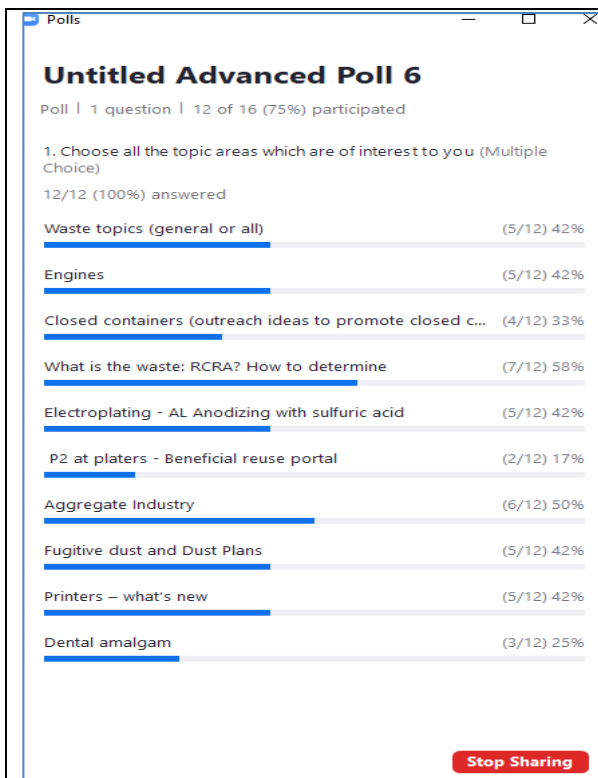

Semi-facilitated open discussion

Why do you participate in the Technical Subcommittee and What do you want to get out of it?

- This part of the meeting involved subcommittee members answering poll questions specific to gaining information about members and what they would like to gain from participating in the group.

Polls and results:

Chat input from Discussion:

one and one and outreach. I didn't think Jack of all trades gave enough info

Currently in UST inspector training. So not able to add in much.

Majority of work is one-on-one. If necessary, I connect them with the proper person even outside of the department. I help with calculations and application completion via getting information from a client and helping them understand how to use the information they already have.

I act as a 'Jack of all Trades', but primary is the one-on-one interactions.

I think we need a future meeting on MM2A & PTE.

Pre-proposal would be best. EPA is combining them.

I'm sure Rhonda can get us a speaker from EPA.

Polls are very helpful. I use them.

Polls are useful. I found today's polls very interesting.

Especially the poll question that asked the topic area of interest. That's helpful for me to know.

*Maybe we can have an open forum section to close some meetings to discuss individual technical topics that might be of interest but would not require a full hour. **For example**, other than the **USEPA RAD Responsible Appliance Disposal website**, is there a **replacement for the former Stratospheric Ozone Hotline to field Refrigerant issues** - reclaiming questions, certifications, etc.?*

Future topics:

- **September 20, 2022: EPA Air Trends Update & Report**, Julia Black, EPA OAQPS
- **October 18, 2022: CDX/CEDRI Train the Trainer with a small business focus**, Eric Goehl & Casey Myers, EPA OAQPS

Next Call: September 20, 2022

1 pm CST (2 pm EST) (3rd Tuesday of month)
