Help Wanted

- a. Since we don't have an SBEAP for WCAQMD - I would like to know how folks who do are funded and got started.
- b. I have liked a lot of the resources I have found regarding permitting and PTE etc. for other agencies, maybe a central location for resources with more generic/customizable versions of spreadsheets would be nice for small business and small agencies (there are a lot of locked fields or you can't remove the logo etc.).
