

Day 2

Review of Annual Report Data

- Can you share who is heading up this effort? Please keep in mind that this survey effort cannot be funded under the grant.
 - Will do, Education subcommittee has workgroup that leads this effort each years.
- Have you considered having a longer narrative report? The annual report flyer is great but it really seems like more of a summary/marketing piece, rather than a more comprehensive report.
 - Answered live in recording.
- Is the report still being sent to Congress and how it being used to let them know how important our SBEAP are to assist small businesses?
 - Answered live in recording.
