Big Wins

JENNIFER COLLINS JUN 03, 2021 01:50PM

1. Updating our documents to a new design template and making sure they are current. We are also making progress in creating videos based on our usual introductory workshop series.

Challenges

JENNIFER COLLINS JUN 03, 2021 01:50PM

1. Working remotely this past year has made it difficult to offer the same number of assistances to clients. We have been unable to do site visits, and are not receiving our normal volume of calls.

2021 / 2022 Excitement & Priorities

JENNIFER COLLINS JUN 03, 2021 01:50PM

1. We are looking forward to getting back into the office, rebuilding relationships with our regulatory agencies, and starting site visits again.

Help Wanted

JENNIFER COLLINS JUN 03, 2021 01:50PM

1. We are dealing with more and more uncommon types of businesses where we do not necessarily have access to established emission factors. It would be nice if there were some sort of repository for emissions factors that have been accepted by permitting agencies that aren't available or used in AP-42 or WebFIRE.

great idea – JENNIFER COLLINS

Very good idea! – ANONYMOUS

Structure and Stats (Where are you housed? and How many Full Time Equivalents (FTEs)?)

JENNIFER COLLINS JUN 03, 2021 01:51PM

1. We are in a non-regulatory, compliance-focused division of our environmental protection agency. There are currently 1.5 FTE in our SBEAP program.
