Big Wins from the past year NM conducted a minor source emission inventory. A first in a very long time. An SBEAP staff member was asked to help with the project. The inventory shows 4600 submissions out of 5700 (which also includes Title V sources) have been received so far.

Challenges

JENNIFER COLLINS JUN 08, 2021 05:56PM

The lack of small businesses contacting our program for assistance not related to emission inventory questions.
