Call for presenters: Approaches to address a new industry and/or a new compliance topic

Body

The Education Subcommittee is looking for three panelists to present at the annual training. The panel discussion is 45 minutes including questions. Each presenter will have 10 minutes.

We want to provide different voices and different approaches. We are interested in a variety of methods including the different takes of a regulatory, university, or SBDC SBEAP.

What is your strategy?

Can you share an example from a recent industry inquiry?

Are you realizing you have an approach to share?

Please email Belindabreidenba@boisestate.edu with your interest and any questions.
