О

ORIDA DEPARIMEN

NMENTAL PROT

This calendar is designed for Perchloroethylene Dry Cleaners. It summarizes environmental regulations and provides a place for you to keep required records. Keep these records at your facility for five years.

Provided by: Small Business Environmental Assistance Program, DEP

Environmental Regulations

Dry cleaners are facilities engaged in the cleaning of fabrics in a nonaqueous solvent by means of one or more washes in a solvent, extraction of excess solvent by spinning, and drying by tumbling in an airstream. Such facilities include dry to dry machines, filter and purification systems; emission control equipment; waste disposal systems; holding tanks; pumps and attendant piping and valves.

Dry cleaning facilities utilizing the solvent perchloroethylene, or "perc", which is considered an air toxic or hazardous pollutant, are eligible to operate in Florida under the terms of an air general permit (AGP) pursuant to the requirements of Rule 62-210.310(5)(f), Florida Administrative Code (F.A.C.).

An AGP is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Florida Department of Environmental Protection (DEP). The terms and conditions of an AGP are set forth in the rule, rather than in a separately issued air construction or air operation permit.

Dry cleaners that use only petroleum based cleaning solvents may qualify for an exemption under Rule 62-210.300(3)(a)(25), F.A.C., provided the solvent consumption is less than 3,250 gallons per year.

Division of Air Resource Management

For Dry Cleaner operation questions, please contact the Small Business Environmental Assistance Program (SBEAP) at 1-800-722-7457, or by email: Small.Business@dep.state.fl.us

- The SBEAP provides free and confidential assistance with environmental regulations.
- If it's located in Broward, Duval, Hillsborough, Miami-Dade, Orange, Palm Beach, Pinellas, or Sarasota counties, visit our Local Program at <u>https://floridadep.gov/air/air-</u> <u>director/content/local-program-air-</u> <u>contacts</u>
- For all other counties, go to our District Air Contacts, <u>https://floridadep.gov/air/air-</u> <u>director/content/district-air-contacts</u>

Perc Purchases Running Total (July 2025 example)

Record the date you purchased perc. If you bought 15 gallons, record this amount and add it to the subtotal. This amount will also go on next year's calendar for this same month. The 12-month running total is now 60 gallons. Record 60 gallons on next month's form.

Running total from last month (June 2025)	Previous 12-month's total	55 gallons	
Enter the amount of perc you bought during this same month last year, from	Cubtra et		45 GALLONS
last year's records or calendar. Subtract this amount. (July 2024)	Subtract	10 gallons	+ 15 GALLONS
This is your 12-month running total if you do not buy perc this month	Subtotal	45 gallons	= 60 GALLONS

Purchase date of perc	Purchase amount in gallons	
July 11, 2025	Add	15 gallons
12-month running total	Total	60 gallons

Condenser Temperature Log:

- Check the outlet temperature of the refrigerated condenser every week.
- Record the temperature and date in the space provided.
- In the block marked "Is temp. less than or equal to 45° F (7.2° C)?" check "yes" or "no".
 If you checked "no", the machine must be repaired.
- If you buy 140 gallons or more of perc per year, you must check your machine weekly for leaks and record the results.
- If you buy less than 140 gallons of perc per year, you must conduct and record leak inspections at least every other week.
- Record the results of the inspections on the calendar. If leaks are found, they must be repaired within 24 hours. Indicate in the "Date Repaired" block when repairs are completed. If parts must be purchased, indicate the dates they are ordered, and the date installed. Parts must be ordered within two working days of leak detection and installed within five working days of receipt.

Tips and Reminders:

To register or renew an Air General Permit, go to the DEP Business Portal Air Facility page at http://www.fldepportal.com/go/home/ and sign in or register from the link in the upper right corner of the page

- Have you changed your wastewater treatment filter according to the manufacturer's specifications?
- A tiny drip or leak through a door gasket valve or bearing seal may add to many gallons of solvent \$\$\$ in a very short time.

Tips and Reminders:

For more information on AGPs or assistance with using AGPERS, please contact DEP's Small Business Environmental Assistance Program at 1-800-722-7457

• Open button traps and lint gaskets only long enough to clean. Clean lint screens regularly to avoid clogging fans and condensers.

Tips and Reminders:

For questions related to compliance procedures such as test notifications, report submittals, record keeping, inspections, etc., please contact the compliance authority specific to the county where your facility is located.

• Install energy efficient fluorescent lighting such as T8, T10 fixtures and bulbs, electronic ballasts or metal halide and/or sodium vapor lamps.

The Dry Cleaner Air General Permit is **NOT TRANSFERABLE** and does not follow a change in ownership of the facility. If you are a new owner and have not submitted a registration worksheet and/or have any permitting questions, please contact the Small Business Environmental Assistance Program at 1-800-722-7457.

You can register online electronically at:

https://www.fldepportal.com/DepPortal/go/apply-operate-airfacility

If you prefer to register manually by hardcopy, then print the "Printing Operations Air General Permit Registration Worksheet" located at: <u>https://floridadep.gov/air/permitting-compliance/content/perchloroethylene-</u> <u>dry-cleaners</u>

Registrations and fees should be mailed to the following address:

Department of Environmental Protection Attn: FDEP Air General Permits 2600 Blair Stone Road, MS 5500 Tallahassee, Florida, 32399-2400 If you are a Florida dry cleaner that uses perc, you need to be permitted with the Division of Air Resources Management and you need to be registered with the Division of Waste.

Division of Waste Management: <u>850-245-</u> 8705

Federal EPA ID Number: As a dry cleaner, it is likely that you are a small quantity generator of hazardous waste. Call the contact number above for your required Federal ID number.

Dry Cleaning Facility Registration: Dry cleaning facilities and wholesale supply facilities that use dry cleaning solvents are required to be registered with the Division of Waste Management. Regulated solvents include: perchloroethylene ("perc"), tetrachloroethylene, valcene, carbon tetrachloride, and other petroleum-based solvents. The Waste Division issues invoices each November for a \$100 annual registration fee due from every facility that operated in the calendar year. You must be registered in order to purchase perc from your supplier.

Dry Cleaning Solvent Cleanup Program: Dry cleaning facilities and wholesale supply facilities that reported dry cleaning solvent contamination to FDEP no later than December 31, 1998, may be eligible for site rehabilitation assistance. Call the contact number above for more information on this program and to see if your facility is eligible.

Septic Tank Recommendations: Check with your Local County Health Department.

Sewer Recommendations: Check with your Local public/private utility.
