

THE BOTTOM LINE

The Small Business Assistance Program (SBAP) provides *free services* when and where you need them. We understand the challenges small businesses face.

Because SBAP is an assistance program, and not a part of the enforcement division, we can help you proactively evaluate your environmental issues and find solutions.

FREE ENVIRONMENTAL REGULATORY ASSISTANCE FOR SMALL BUSINESSES

The **Small Business Assistance Program (SBAP)** offers free services to small businesses seeking help in understanding and complying with air and other environmental regulations. If you have questions, we can help.

Our staff knows the compliance process and how the most recent legislative changes affect your business.

Over the last 10 years, we have worked with industry groups to develop tools to help you evaluate your options quickly, easily and cost effectively.

WE PROVIDE 3 PRIMARY SERVICES

Nº 1. Assistance understanding air quality and other environmental regulations that apply to your business.

- One-on-one compliance assistance by telephone or in-person site visits.
- Advice and troubleshooting on environmental compliance issues.
- Assistance obtaining or updating an air emissions permit.
- Group training through workshops on general or industry-specific issues.

Nº 2. Support tools to help you make compliance decisions.

- Guidance documents, emissions calculators, and checklists.

Nº 3. Advocacy services when dealing with air compliance issues.

- Mediation services for resolving complaints or disputes between you and air division representatives.
